### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15-20 and 31-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Rudzinat (US. Pat. No. 3,306,306).

Rudzinat discloses all that is recited in the claims since it teaches an apparatus for producing multi-segmented cigarettes, comprising hoppers 1 and 101 (corresponding to the claimed “at least two units structured and arranged to provide at least two different types of filter segments”); saddle wheels 2 and 102 (corresponding to the claimed “assembling device coupled to said plurality of filter segment units to axially align the produced plurality of filter segments of different types” as recited in claim 31); aligning drums 10 and 110 (corresponding to the claimed “first assembling device structured and arranged to assemble the at least two different types of filter segments into groups”); staggering drums 5 and 105 (corresponding to the claimed “separation device structured and arranged to divide the groups into part groups/sliding drum”); and shuffling drum 22 (corresponding to the claimed “device by which the part groups are arranged in a such a manner that the filter segments of the part groups are adjoined in a lengthwise manner”).)

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 34 is rejected under 35 U.S.C. 103(a) as being unpatentable over Rudzinat (US. Pat. No. 3,306,306).

While Rudzinat may not specifically disclose the claimed transfer conveyor and insertion wheel, it would have been obvious to one having ordinary skill in the art at the time of the invention to have provided for such devices to form a rod since such elements are conventional in the production of filter cigarettes.

***Response to Arguments***

Applicant's arguments filed March 13, 2007 have been fully considered but they are not persuasive. Examiner has not found the claimed features pointed out by Applicant to have *structural* differences that would lead to a conclusion of novelty and non-obviousness.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John B. Edel whose telephone number is (571) 272-4804. The examiner can normally be reached on 8:30 am to 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven P. Griffin can be reached on (571) 272-1189. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
